

Your child is participating in 1Village !

THE ASSOCIATION

Par Le Monde is an association that develops and runs digital intercultural exchange program for children aged 7 to 13 and their teachers. This program is called **1Village**. We want to develop curiosity, responsibility and openness to other cultures by using digital tools in a positive way.

OUR PURPOSES

Promoting living together

Combating territorial disparities

Educating children on the positive use of digital tools

Fostering academic and psychosocial skills

Supporting teachers and school/family co-education

1VILLAGE

Since 2019, our "1Village" program has enabled children from around the world and their teachers to share their culture and daily lives. Thanks to digital tools, your child interacts with around **20 classes**, sending messages and videos, playing together and **learning to live together**.

Children interact within a group called **"village-monde"** :

1Village lasts **one school year** and is divided into 3 modules :

10 classes from your country

10 classes from another country

1. Discover

2. Exchange

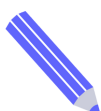

3. Imagine

All 1Village activities help develop **academic skills** :

French oral expression

French written expression

Digital literacy

History

Geography

Mathematics

WHY PARTICIPATE IN 1VILLAGE AS A FAMILY?

Strengthening educational continuity between school and family

Fostering intergenerational relations

Promoting cultural diversity in the classroom

HOW PARTICIPATE IN 1VILLAGE AS A FAMILY?

To participate in this program with your child, you can :

Create your account on 1Village to observe exchanges between classes.

Carry out activities at home (these are shared with you by your child's teacher).

As a family, you have several missions :

- Discover and discuss intercultural exchanges with your child
- Share your culture and history with your child
- Help to promote diversity in your child's classroom
